## Harvest requirements:

- This is a ticket sale.
- Sale boundaries are red paint lines, forest roads, and abrupt changes in stand type (red pine plantation on east side; keg on north.)
- DO NOT use wildlife openings for harvest operations or for decking wood.
- The North Country Trail (NCT) runs through stand. Do not cut blue-painted trees or purple-painted trees along trail. Keep slash 18" or less within 25ft of the NCT. Do not operate machinery on the trail. Minimize crossings of the trail, as determined by Sale Administrator.
- Leave a 30-ft no-harvest buffer (1/2 tree length) around wet pocket on northern border of stand.
- Harvest all aspen, birch, maple, oak, and jack pine 4" dbh and larger, EXCEPT do not cut purple-painted leave trees. Sever all hardwood stems 2" dbh and larger.
- Do not cut snags, except for those that are a safety hazard to logging operations.
- Do not damage any survey monumentation.
- Prior to moving equipment on to or off the sale area, scrape or brush debris and soil from exterior surfaces.
- This contract requires county authorization for all road/landing construction and places a number of other requirements on road construction and closure.
- Decking of wood along town roads will not be allowed without permission of Bayfield County.
