Harvest requirements:

- This timber sale is being sold on a ticket scale basis.
- This is a second thin red pine plantation with an average diameter of 9 inches.
- Cut all orange marked Red Pine and all merchantable jack pine, aspen, and scrub oak utilizing to a 4-inch top diameter.
- Sale boundaries are roads or abrupt changes in timber type.
- Minimize damage to the residual stand.
- Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
- To comply with the Best Management Practices for Invasive Species, prior to moving equipment on to or off the sale area, scrape or brush debris and soil from exterior surfaces to the greatest extent possible.
- This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
- Decking of wood along town roads will not be allowed without permission from Bayfield County.
- The existing access roads within this timber sale are open to highway vehicle use. Upon completion of the timber sale these roads will be left open and in good condition, unless otherwise directed by the sale administrator.
- During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must insure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Do not damage trail signs or markers.
