Subject: Letter of Support – Bayfield County Wisconsin application for Rebuilding American Infrastructure with Sustainability and Equity (RAISE) funding

Dear Secretary Buttigieg:

On behalf of Wisconsin Department of Natural Resources, we are pleased to submit this Letter of Support for Bayfield County, Wisconsin's application for a RAISE grant to help fund critical infrastructure needs.

The project attached will improve a 22-mile stretch of road in order to provide the local forest industry **year-round** access to county forest lands, increase the overall safety along the road and provide Electric Vehicle Charging Stations along the route. The southern segment of County Highway A and the western segment of County Highway N provide access to nearly 30% of the forest lands within the county. During spring heavy load limits are placed on the road at present as the road's foundation is not able to support heavy loads. For approximately 60 days every year the county must impose weight limits which prevent logging trucks from accessing forest lands.

This proposed project includes plans for reconstructing these roads to ensure they are usable in all-seasons. Improvements include base improvements, surfacing, paved road edges and improved shoulders which will improve safety, rideability and all-season access for trucking in addition to electric vehicle charging stations. These improvements will create immediate savings for local businesses and strengthen the county's rural communities.

This project's improvements are consistent with the RAISE program's goals and those of our organization whose goal is to protect and manage the natural resources while supporting the economy and the well-being of our citizenry. The proposed transportation improvements in this application will greatly improve safety, mobility of commercial traffic, and rural economic growth in addition to having positive environmental and climate impacts by encouraging electric vehicle usage in Bayfield County.

Thank you for your consideration and approval of this application.

Sincerely,
Matthew Blaylock
Wisconsin Dept of Natural Resources
