Aspen		252			
					Special Restrictions:
					>Harvested pine must be hauled within 3 weeks between May 1st and August 31st.

TRACT 17-23 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

- Harvest unit 1 has a coppice with reserves prescription with an estimated average residual basal area of 3 ft².

B. HARVEST REQUIREMENTS:

- In unit 1, harvest all unmarked hardwood stems and all unmarked conifer stems 2" and greater. Leave all purple marked trees and all white pine less than 4".
- Leave all trees within 15 feet of wetlands (some indicated on map).

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:

- From May 19th to October 16th care should be taken to avoid open sandy areas with equipment and felled trees due to the possible presence of a rare animal.
- Do not deck wood or disturb soil in wildlife openings, as indicated on map.
- Sale boundaries consist of red paint line, blue paint line, trails, recent harvests, or wetlands.
- The blue paint line indicates private property. No equipment or felled trees may cross the line.
- Harvested pine cannot be kept on the Bayfield County Forest for more than 3 weeks from May 1st to August 31st.
- Whole tree harvesting and/or utilization of tops (≤4" diameter) will not be allowed.

D. ACCESS AND ROADS:

- During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers.
- The primary haul route utilizes a portion of the ATV trail. Excessive damage (beyond normal wear and tear) to the ATV trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the ATV trail remains in a safe and acceptable condition.
- This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
- Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:

- In 2018, oak wilt was officially confirmed in Bayfield County. Currently, this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six mile radius of this timber sale, as determined by the county, the following seasonal restriction will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15
- To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
